

**LAND UNDER CULTIVATION (1955)**

TRIGGER QUESTION B4:  
(In Response to Cultivation)

Where have long-standing occupation, cultivation patterns, homesteads, kraals, and graveyards been identified through historical aerial photography?

Farm portions within the SA Lithium Mining Right where cultivation is noted.

A total of 15 farm portions, comprising:

- Portions 10, and the Remainder of the Farm Longwood No.10289-ET
- The Remainder of the Farm Corner No.11328-ET
- The Remainder of Portion 1, and 2; Portions 3, 6, 15, 17, 18, 20, 25, 27, 29, and the Remainder of the Farm Umsinsini No.13307-ET

Legend:

- Commercial Cultivated Land
- Informal Cultivated Land
- SA Lithium Mining Right (Registered)
- Farm Portion
- Parent Farm

Methodology and Notes:

The analysis is based on aerial imagery captured on 28 July 1955, sourced from CD: NGI, with a spatial resolution of 4 metres. The imagery was georeferenced and interpreted to identify visible signs of informal cultivated land, and commercial cultivated land based on contour aligned cultivation patterns, to assist in answering Trigger Question B4.

Scale 1:20 000

Coordinate system: Hartebeesthoek Lo31
